

I am extremely happy to be visiting this distinguished institution as its Visitor. The infrastructure available is apt in all respects. The library with its digitalisation and e-facility makes it remarkable. The class rooms, auditoriums etc are also first class. I am sure the teachers would be imparting the best of education to the students to make it top class institution standing tall above all other institutions. I will do my best as the Visitor to make sure that the institution achieves even greater heights.

Amr
